

Grünenthal Foundation

10 years of support.

Grünenthal Foundation for the support of Thalidomide-affected people

www.grunenthal-foundation.com

Since its establishment **10 years ago**, the **Grünenthal Foundation** has assisted Thalidomide-affected people to lead lives with as much independence, self-determination and quality of life as possible.

In total, the Grünenthal Foundation has so far supported Thalidomide-affected people in almost

3,500

instances, e.g. barrier-free renovation measures.

By co-financing housing conversions, the Foundation focuses on adapting the affected people's living spaces to meet their individual needs.

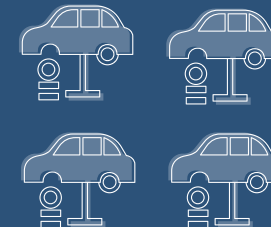

The Grünenthal Foundation promotes **digital technologies** to facilitate people's access to information.

Since the establishment of the foundation, almost

500

cars have been adapted to the special needs of the Thalidomide survivors.

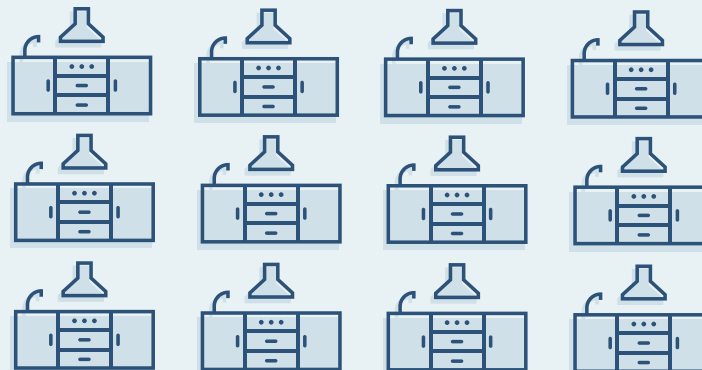

Technological progress and innovations have allowed the Grünenthal Foundation to better support those affected in their everyday life.

The Grünenthal Foundation has co-financed the remodeling of more than **350 baths** and

360

kitchens since its establishment in 2012.

The Grünenthal Foundation supports Thalidomide-affected people with providing companions for activities outside the house, e.g. vacations.
